Work Experience

Senior Application Developer / Manager, Application Development

Gratis Solutions - Chattanooga, TN

Present

- Lead the development and maintenance of an innovative automotive application utilized by OEM dealerships nationwide, enhancing the service experience for customers.
- Manage and maintain a multifaceted server infrastructure, consisting of six web servers, three database servers, two mail servers, and one CRM server, all powered by the CentOS operating system.
- Provide guidance and support to the technology team, ensuring the seamless operation of applications and servers.
- Utilize an array of technologies, including PHP, WordPress, Javascript, React JS, MySQL, Apache, Node.js, PM2, Linux, VB.net, C#, MSSQL, Laravel, Docker, and Git, to carry out responsibilities.
- Foster strong relationships with stakeholders, maintaining open communication channels and addressing their concerns in a timely manner.
- Employ agile development methodologies to ensure the delivery of quality products within tight deadlines.
- Drive innovation and continuous improvement by staying up-to-date with the latest industry trends and technologies.
- Collaborate with cross-functional teams, including product owners, quality assurance testers, and project managers, to ensure project success.

Senior Applications Developer

Textile Management Associates - Dalton, GA

September 2014 to July 2020

- Spearheaded the development and maintenance of 32 websites, utilizing WordPress or WordPress on the backend and React on the frontend.
- Oversaw the development and maintenance of six customized CRM solutions and a mobile application that provided lead-to-quote tracking and carpet order tracking capabilities.
- Managed all of our web and data servers, all of which were Linux-based.
- Worked with a range of technologies, including PHP, WordPress, JavaScript, ReactJS, MySQL, Apache, Node.js, PM2, Linux, VB.net, C#, MSSQL, Laravel, Docker, and Git, to ensure seamless operation of our applications and servers.

Senior Web Application Developer

Gable Point LLC - Chattanooga, TN

July 2012 to September 2014

- Played a pivotal role in building a custom e-commerce platform and the company intranet from scratch.
- Managed three web servers and one database server, all running on MS Server
- Provided support to the technology team, ensuring the seamless operation of our applications and servers.
- Used a range of technologies, including PHP, ASP.NET, C#, MSSQL, WordPress, Codeigniter, ASANA, SQL Server Manager, IIS, JavaScript, and Windows Server Management on a daily basis.

Senior Web Developer / Director of Web Services

Life Care Centers of America - Cleveland, TN

July 2007 to June 2012

- Oversaw the development and maintenance of all 232 forward-facing web marketing sites for Life Care.
- Led the creation and management of the company's SharePoint intranet and internal e-commerce solution.
- Successfully migrated all 232 facility websites to WordPress utilizing the Multi-Site feature, resulting in increased efficiency and ease of maintenance.
- Collaborated with cross-functional teams to develop and implement strategies to improve the user experience and increase engagement across all web properties.
- Developed and managed budgets, hired and trained web development staff, and ensured compliance with web accessibility standards and best practices.
